

The PROFESSIONAL STANDARD

Our Edge

PLS manufactures the highest quality layout tools for the professional contractor.

We are dedicated to designing rugged and accurate laser tools for a lifetime of increased productivity and profit.

Fast, accurate and portable, PLS lasers save time and money versus traditional layout methods using bubble vials, plumb bobs or complex measurements.

Compare the advantages of using a PLS laser to traditional methods you now employ. When comparing PLS laser tools look for these quality features:

1. Beam quality will be bright, thin and crisp
2. Drop tested with water and dust Ingress Protection (IP)
3. Designed for the professional contractor with self-leveling technology

Our History

What sets PLS apart from the rest? Built by contractors for contractors, PLS tools were developed out of necessity by professionals with over 50 years of experience in commercial and residential interior and exterior layout. PLS founders were contractors first before becoming manufacturers of the finest laser alignment tools in the world.

	<i>Included:</i> PLS 3G laser level, PLS canvas pouch, PLS BP5 alkaline battery pack, PLS FS Floor Stand, PLS MLB Magnetic L-Bracket, PLS GRT4 Green Reflective Target

Our best-in-class warranty

PLS laser tools are **THE PROFESSIONAL STANDARD** and we stand behind that with our best-in-class warranty program. The PLS warranty covers product workmanship for 3 years. If you experience any issues with your PLS tools during the warranty period, except for obvious misuse or damage, your local dealer can provide a same-day replacement tool, ensuring you don't lose any time on the job.

Please visit the PLS website to process a warranty return directly through Fluke or to learn more about our rotary laser Authorized Service Provider (ASP) program. PLS authorized service providers are capable to provide in-warranty and out-of-warranty calibration and repair on our rotary laser family.
